notices*

5 Prime Minister may enable use of special powers

- (1) With the agreement of the Minister of Health, the Prime Minister may, by notice in the *Gazette*, declare that he or she is satisfied that the effects of an outbreak of a stated quarantinable disease (within the meaning of the Health Act 1956) are likely to disrupt or continue to disrupt essential governmental and business activity in New Zealand (or stated parts of New Zealand) significantly.
- (2) Subsection (1) applies whether the outbreak is occurring within New Zealand or overseas.
- (3) If not renewed under section 7(1), the notice expires on the earliest of the following:
 - (a) the day 3 months after its commencement;
 - (b) a day stated in the notice;
 - (c) a day stated for the purpose by the Prime Minister by further notice in the *Gazette*.
- (4) The Prime Minister must not give the notice except on, and after considering, the written recommendation of the Director-General of Health.
- (5) As soon as is possible after giving the notice, the Prime Minister must present a copy to the House of Representatives.
- (6) While the notice is in force, further notices may be given modifying its effect—
 - (a) by lifting its application from stated parts of New Zealand; or

 - (a) a Proclamation must be made appointing a day for Parliament to meet; and
 - (b) the day must be—
 - (i) a day not more than 7 days after the day on which the notice was given; or
 - (ii) if the notice was given after Parliament had been dissolved or had expired and before the latest day appointed under the Electoral Act 1993 for the return of the writ for the election of members of Parliament, a day not more than 7 days after the latest day appointed for the return of the writ; and
 - (c) Parliament must meet and sit on the day appointed.

9 Review of epidemic notices

- (1) The Director-General of Health must keep under review, and keep the Prime Minister and the Minister of Health informed of, the situation out of which the making of an epidemic notice arose.

Notes**1 General**

This is a reprint of the Epidemic Preparedness Act 2006. The reprint incorporates all the amendments to the Act as at 7 July 2010, as specified in the list of amendments at the end of these notes.

Relevant provisions of any amending enactments that contain transitional, savings, or application provisions that cannot be compiled in the reprint are also included, after the principal enactment, in chronological order. For more information, *see* <http://www.pco.parliament.govt.nz/reprints/>.

2 Status of reprints

Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 How reprints are prepared

A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not included in Acts, and

provisions that are repealed or revoked are omitted. For a detailed list of the editorial conventions, *see* <http://www.pco.parliament.govt.nz/editorial-conventions/> or Part 8 of the *Tables of New Zealand Acts and Ordinances and Statutory Regulations and Deemed Regulations in Force*.

4 *Changes made under section 17C of the Acts and Regulations Publication Act 1989*

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted. A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
 - indentation
 - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)

- position of the date of assent (it now appears on the front page of each Act)
- punctuation (eg, colons are not used after definitions)
- Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
- case and appearance of letters and words, including:
 - format of headings (eg, headings where each word formerly appeared with an initial capital letter followed by small capital letters are amended so that the heading appears in bold, with only the first word (and any proper nouns) appearing with an initial capital letter)
 - small capital letters in section and subsection references are now capital letters
- schedules are renumbered (eg, Schedule 1 replaces First Schedule), and all cross-references are changed accordingly
- running heads (the information that appears at the top of each page)
- format of two-column schedules of consequential amendments, and schedules of repeals (eg, they are rearranged into alphabetical order, rather than chronological).
