

General Assembly

Distr.: General
8 November 2006

Original: English

Sixty-first session

Agenda item 30

International cooperation in the peaceful uses of outer space

Report of the Special Political and Decolonization Committee (Fourth Committee)

Rapporteur: Ms. Rana Salayeva (Azerbaijan)

I. Introduction

1. At its 2nd plenary meeting, on 13 September 2006, the General Assembly, on the recommendation of the General Committee, decided to include in the agenda of its sixty-first session the item entitled “International cooperation in the peaceful uses of outer space” and to allocate it to the Special Political and Decolonization Committee (Fourth Committee).

2. The Fourth Committee considered the item at its 7th to 9th, 15th, 16th and 18th meetings, from 11 to 13, and on 23, 25 and 30 October 2006 (see A/C.4/61/SR.7-9, 15, 16 and 18). The Committee held a general debate on the item at its 8th and 9th meetings, on 12 and 13 October (see A/C.4/61/SR.8 and 9).

3. For its consideration of the item, the Committee had before it the following documents:

- (a) Report of the Committee on the Peaceful Uses of Outer Space;¹
- (b) Report of the Secretary-General (A/61/495).

4. At its 1st meeting, on 28 September, the Committee decided to establish a Working Group of the Whole on international cooperation in the peaceful uses of outer space, to be chaired by the delegation of France, to prepare a proposal to be submitted under item 30.

5. At the 7th meeting, on 11 October 2006, the Chairman of the Fourth Committee made an introductory statement (see A/C.4/61/SR.7).

¹ *Official Records of the General Assembly, Sixty-first Session, Supplement No. 20 (A/61/20).*

6. At the same meeting, the Chairman of the Committee on the Peaceful Uses of Outer Space introduced the report of the Committee, an expert on space technology made a presentation and the Director of the United Nations Office for Outer Space Affairs made a statement (see A/C.4/61/SR.7).

II. Consideration of proposals

7. At its 12th meeting, on 18 October, the Committee decided to take action on the item at its 15th meeting, on 23 October.

8. At its 15th meeting, on 23 October, the Committee decided to postpone action on the item to 25 October.

9. At its 16th meeting, on 25 October, the Committee decided to postpone action on the item to 30 October.

A. Draft resolution A/C.4/61/L.2/Rev.1

10. At the 18th meeting, on 30 October, the representative of France, in his capacity as Chairman of the Working Group of the Whole, introduced a draft resolution entitled “United Nations Platform for Space-based Information for Disaster Management and Emergency Response” (A/C.4/61/L.2/Rev.1) and orally revised it by adding at the end of operative paragraph 7 the words “and should not result in an increase in the total regular budget of the United Nations”.

11. At the same meeting, the Secretary of the Committee made a statement regarding the programme budget implications of the draft resolution as revised (see A/C.4/61/SR.18).

12. Also at the same meeting, the Committee adopted draft resolution A/C.4/61/L.2/Rev.1, as orally revised, without a vote (see para. 15, draft resolution I).

B. Draft resolution A/C.4/61/L.3/Rev.1

13. At the 18th meeting, on 30 October, the representative of France, in his capacity as Chairman of the Working Group of the Whole, introduced a draft resolution entitled “International cooperation in the peaceful uses of outer space” (A/C.4/61/L.3/Rev.1).

14. At the same meeting, the Committee adopted draft resolution A/C.4/61/L.3/Rev.1 without a vote (see para. 15, draft resolution II).

III. Recommendations of the Special Political and Decolonization Committee (Fourth Committee)

15. The Special Political and Decolonization Committee (Fourth Committee) recommends to the General Assembly the adoption of the following draft resolutions:

Draft resolution I United Nations Platform for Space-based Information for Disaster Management and Emergency Response

The General Assembly,

Recalling its resolutions 54/68 of 6 December 1999, 59/2 of 20 October 2004 and 59/116 of 10 December 2004,

Seriously concerned about the devastating impact of disasters,¹ causing the loss of lives and property, displacing people from their homes and destroying their livelihoods, and causing tremendous damage to societies around the world,

Equally concerned that disasters reverse, as well as affect and hinder, current and future development efforts in all parts of the world, in particular in developing countries,

Deeply convinced of the urgent need for enhanced coordination efforts at the global level to reduce the impact of disasters,

Recognizing, in that regard, that unnecessary loss of life and property could be avoided if better information were available regarding the risk and onset of disasters, through improved risk assessment, early warning and monitoring of disasters,

Convinced that the use of existing space technology, such as Earth observation and meteorological satellites, communications satellites and satellite navigation and positioning systems, and their applications, can play a vital role in supporting disaster management by providing accurate and timely information for decision-making and re-establishing communication in case of disasters,

Desirous of enhancing international coordination at the global level in disaster management and emergency response through greater access to and use of space-based services for all countries and facilitating capacity-building and institutional strengthening for disaster management, in particular in developing countries,

Having considered the report of the Committee on the Peaceful Uses of Outer Space on the work of its forty-ninth session,²

1. *Recognizes* that disasters affect many areas of the Earth and that coordinated international efforts are required to reduce their impacts, and that space technology and its application can play a vital role in supporting disaster relief operations by providing accurate and timely information and communication support;

¹ The term "disasters" refers to natural or technological disasters.

² *Official Records of the General Assembly, Sixty-first Session, Supplement No. 20 (A/61/20)*.

2. *Also recognizes* the important role that coordinated applications of space technology can play in the implementation of the Hyogo Declaration and the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters, adopted by the World Conference on Disaster Reduction, held at Kobe, Hyogo, Japan, from 18 to 22 January 2005;³

3. *Further recognizes* that different international initiatives aimed at utilizing space-based disaster information and services exist, such as the Integrated Global Observing Strategy Partnership, the Global Earth Observation System of Systems, the International Charter on Space and Major Disasters and the International Strategy for Disaster Reduction, and that the availability of such services should be promoted among developing countries;

4. *Notes with concern* that unless a global, integrated and coordinated approach is undertaken, building upon the experiences of existing international initiatives, the utilization of space assets in support of disaster management will continue to lag significantly in most parts of the world and that a considerable gap will exist and is likely to remain in all areas of space technology applications to disaster management;

5. *Takes note with appreciation* of the study of the ad hoc expert group established by the Committee on the Peaceful Uses of Outer Space on the possibility of creating an international entity to provide for coordination and the means of realistically optimizing the effectiveness of space-based services for use in disaster management;⁴

6. *Decides* to establish a programme within the United Nations to provide universal access to all countries and all relevant international and regional organizations to all types of space-based information and services relevant to disaster management to support the full disaster management cycle by being a gateway to space information for disaster management support, serving as a bridge to connect the disaster management and space communities and being a facilitator of capacity-building and institutional strengthening, in particular for developing countries;

7. *Agrees* that the programme would be supported through voluntary contributions and through a rearrangement of priorities within the framework of the United Nations reform process and, if necessary, a rearrangement of priorities of the Office for Outer Space Affairs of the Secretariat and that the additional activities would not, as far as possible, have a negative impact on the current programme activities of the Office and should not result in an increase in the total regular budget of the United Nations;

8. *Endorses* the recommendation of the Committee on the Peaceful Uses of Outer Space that the programme have an office in Beijing and an office in Bonn, Germany, and that the activities of the programme be carried out within the proposed implementation framework presented to the Committee;

9. *Notes* that due consideration would be given to the possibility that the programme could have a liaison office in Geneva that would contribute to

³ A/CONF.206/6 and Corr.1, chap. I, resolutions 1 and 2.

⁴ A/AC.105/873.

disseminating and integrating the work of the programme within the disaster reduction and humanitarian response communities;

10. *Takes note with appreciation* of the commitments of support for the establishment of the programme made by Austria, China, Germany and India and the offers of support once it is established made by Algeria, Argentina, Italy, Morocco, Nigeria, Romania, the Russian Federation, Switzerland and Turkey;

11. *Agrees* that the programme should work closely with regional and national centres of expertise in the use of space technology in disaster management to form a network of regional support offices for implementing the activities of the programme in their respective regions in a coordinated manner and to take advantage of the important experience and capabilities being offered, and to be offered, by Member States, particularly by developing countries;

12. *Requests* that the programme also work closely with the international initiatives noted in paragraph 3 above in order to avoid duplication of efforts;

13. *Requests* the Office for Outer Space Affairs to develop a detailed workplan for the programme for 2007 and for the biennium 2008-2009 to be considered during the forty-fourth session of the Scientific and Technical Subcommittee of the Committee on the Peaceful Uses of Outer Space, taking into consideration the commitments received, and in consultation with the representatives of countries that have provided or would be providing commitments, as well as with the representatives of other countries that have indicated their interest in contributing to the development of the workplan;

14. *Agrees* that the partners implementing the programme should endeavour to initiate activities in January 2007 or as soon as it is practicable, in order to enable the programme to begin providing support for disaster management at the earliest possible time;

15. *Also agrees* that the programme should be named the United Nations Platform for Space-based Information for Disaster Management and Emergency Response (SPIDER), and that it should be implemented as a programme of the Office for Outer Space Affairs under the Director of the Office, as an open network of providers of disaster management support, and that the Director of the Office would be responsible for the overall supervision of the programme;

16. *Further agrees* that the programme should report to and receive guidance from the Committee on the Peaceful Uses of Outer Space through the Office for Outer Space Affairs.

Draft resolution II

International cooperation in the peaceful uses of outer space

The General Assembly,

Recalling its resolutions 51/122 of 13 December 1996, 54/68 of 6 December 1999, 59/2 of 20 October 2004 and 60/99 of 8 December 2005,

Deeply convinced of the common interest of mankind in promoting and expanding the exploration and use of outer space, as the province of all mankind, for peaceful purposes and in continuing efforts to extend to all States the benefits derived therefrom, and also of the importance of international cooperation in this field, for which the United Nations should continue to provide a focal point,

Reaffirming the importance of international cooperation in developing the rule of law, including the relevant norms of space law and their important role in international cooperation for the exploration and use of outer space for peaceful purposes, and of the widest possible adherence to international treaties that promote the peaceful uses of outer space in order to meet emerging new challenges, especially for developing countries,

Seriously concerned about the possibility of an arms race in outer space, and bearing in mind the importance of article IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Recognizing that all States, in particular those with major space capabilities, should contribute actively to the goal of preventing an arms race in outer space as an essential condition for the promotion and strengthening of international cooperation in the exploration and use of outer space for peaceful purposes,

Considering that space debris is an issue of concern to all nations,

Noting the progress achieved in the further development of peaceful space exploration and applications as well as in various national and cooperative space projects, which contributes to international cooperation, and the importance of further developing the legal framework to strengthen international cooperation in this field,

Convinced of the importance of the recommendations in the resolution entitled “The Space Millennium: Vienna Declaration on Space and Human Development”, adopted by the Third United Nations Conference on the Exploration and Peaceful Uses of Outer Space (UNISPACE III), held at Vienna from 19 to 30 July 1999,² and the need to promote the use of space technology towards implementing the United Nations Millennium Declaration,³

Taking note of the actions already taken as well as those to be embarked upon to further implement the recommendations of UNISPACE III, as reflected in

¹ Resolution 2222 (XXI), annex.

² See *Report of the Third United Nations Conference on the Exploration and Peaceful Uses of Outer Space, Vienna, 19-30 July 1999* (United Nations publication, Sales No. E.00.I.3), chap. I, resolution 1.

³ See resolution 55/2.

resolution 59/2 and the Plan of Action of the Committee on the Peaceful Uses of Outer Space,⁴

Convinced that the use of space science and technology and their applications in such areas as telemedicine, tele-education, disaster management and environmental protection as well as other Earth observation applications contribute to achieving the objectives of the global conferences of the United Nations that address various aspects of economic, social and cultural development, inter alia, poverty eradication,

Taking note, in that regard, that the 2005 World Summit recognized the important role that science and technology play in promoting sustainable development,⁵

Having considered the report of the Committee on the Peaceful Uses of Outer Space on the work of its forty-ninth session,⁶

1. *Endorses* the report of the Committee on the Peaceful Uses of Outer Space on the work of its forty-ninth session;⁶

2. *Urges* States that have not yet become parties to the international treaties governing the uses of outer space⁷ to give consideration to ratifying or acceding to those treaties as well as incorporating them in their national legislation;

3. *Notes* that, at its forty-fifth session, the Legal Subcommittee of the Committee on the Peaceful Uses of Outer Space continued its work, as mandated by the General Assembly in its resolution 60/99;⁸

4. *Endorses* the recommendation of the Committee that the Legal Subcommittee, at its forty-sixth session, taking into account the concerns of all countries, in particular those of developing countries:

- (a) Consider the following as regular agenda items:
 - (i) General exchange of views;
 - (ii) Status and application of the five United Nations treaties on outer space;
 - (iii) Information on the activities of international intergovernmental and non-governmental organizations relating to space law;
 - (iv) Matters relating to:
 - a. The definition and delimitation of outer space;

⁴ A/59/174, chap. VI.B.

⁵ See resolution 60/1, para. 60.

⁶ *Official Records of the General Assembly, Sixty-first Session, Supplement No. 20 (A/61/20)*.

⁷ Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies (resolution 2222 (XXI), annex); Agreement on the Rescue of Astronauts, the Return of Astronauts and the Return of Objects Launched into Outer Space (resolution 2345 (XXII), annex); Convention on International Liability for Damage Caused by Space Objects (resolution 2777 (XXVI), annex); Convention on Registration of Objects Launched into Outer Space (resolution 3235 (XXIX), annex); and Agreement Governing the Activities of States on the Moon and Other Celestial Bodies (resolution 34/68, annex).

⁸ See *Official Records of the General Assembly, Sixty-first Session, Supplement No. 20 (A/61/20)*, chap. II.D.

b. The character and utilization of the geostationary orbit, including consideration of ways and means to ensure the rational and equitable use of the geostationary orbit without prejudice to the role of the International Telecommunication Union;

(b) Consider the following single issues/items for discussion:

(i) Review and possible revision of the Principles Relevant to the Use of Nuclear Power Sources in Outer Space;⁹

(ii) Examination and review of the developments concerning the draft protocol on matters specific to space assets to the Convention on International Interests in Mobile Equipment;

(c) Consider the practice of States and international organizations in registering space objects in accordance with the workplan adopted by the Committee;¹⁰

5. *Notes* that the Legal Subcommittee, at its forty-sixth session, will submit its proposals to the Committee for new items to be considered by the Subcommittee at its forty-seventh session, in 2008;

6. *Also notes* that, in the context of paragraph 4 (a) (ii) above, the Legal Subcommittee, at its forty-sixth session, will reconvene its Working Group and review the need to extend the mandate of the Working Group beyond that session of the Subcommittee;

7. *Further notes* that, in the context of paragraph 4 (a) (iv) a. above, the Legal Subcommittee will reconvene its Working Group on the item only to consider matters relating to the definition and delimitation of outer space;

8. *Notes* that, in the context of paragraph 4 (c) above, the Legal Subcommittee will reconvene its Working Group;

9. *Also notes* that the Scientific and Technical Subcommittee, at its forty-third session, continued its work as mandated by the General Assembly in its resolution 60/99;¹¹

10. *Endorses* the recommendation of the Committee that the Scientific and Technical Subcommittee, at its forty-fourth session, taking into account the concerns of all countries, in particular those of developing countries:

(a) Consider the following items:

(i) General exchange of views and introduction to reports submitted on national activities;

(ii) United Nations Programme on Space Applications;

(iii) Implementation of the recommendations of the Third United Nations Conference on the Exploration and Peaceful Uses of Outer Space (UNISPACE III);

⁹ See resolution 47/68.

¹⁰ See *Official Records of the General Assembly, Fifty-eighth Session, Supplement No. 20* (A/58/20), para. 199.

¹¹ *Ibid.*, *Sixty-first Session, Supplement No. 20* (A/61/20), chap. II.C.

(iv) Matters relating to remote sensing of the Earth by satellite, including applications for developing countries and monitoring of the Earth's environment;

(b) Consider the following items in accordance with the workplans adopted by the Committee:¹²

- (i) Space debris;
- (ii) Use of nuclear power sources in outer space;
- (iii) Near-Earth objects;
- (iv) Space-system-based disaster management support;
- (v) International Heliophysical Year 2007;

(c) Consider the following single issue/item for discussion: examination of the physical nature and technical attributes of the geostationary orbit and its utilization and applications, including in the field of space communications, as well as other questions relating to developments in space communications, taking particular account of the needs and interests of developing countries;

11. *Notes* that the Scientific and Technical Subcommittee, at its forty-fourth session, will submit its proposal to the Committee for a draft provisional agenda for the forty-fifth session of the Subcommittee, in 2008;

12. *Endorses* the recommendation of the Committee that the Committee on Space Research and the International Astronautical Federation, in liaison with member States, be invited to arrange a symposium to address the theme "The use of the equatorial orbit for space applications: challenges and opportunities", with as wide participation as possible, to be held during the first week of the forty-fourth session of the Scientific and Technical Subcommittee;

13. *Agrees* that, in the context of paragraphs 10 (a) (ii) and (iii) and 11 above, the Scientific and Technical Subcommittee, at its forty-fourth session, should reconvene the Working Group of the Whole;

14. *Also agrees* that, in the context of paragraph 10 (b) (i) above, the Scientific and Technical Subcommittee could, at any time during its forty-fourth session, reconvene its Working Group on Space Debris to consider comments resulting from the referral of the guidelines to the national level and any further developments, particularly the relationship between the revised draft of the space debris mitigation guidelines and nuclear power sources in outer space;¹³

15. *Further agrees* that, in the context of paragraph 10 (b) (ii) above, the Scientific and Technical Subcommittee, at its forty-fourth session, should reconvene its Working Group on the Use of Nuclear Power Sources in Outer Space and that the Working Group should continue its intersessional work on the topics described in the multi-year workplan as amended by the Subcommittee at its forty-second

¹² See A/AC.105/848, annex II, para. 6, for item (i); *ibid.*, annex III, para. 8, for item (ii); *ibid.*, annex I, para. 20, and A/AC.105/869, annex I, para. 22, for item (iii); A/AC.105/823, annex II, para. 15, and A/AC.105/848, annex I, para. 21, for item (iv); and A/AC.105/848, annex I, para. 22, for item (v).

¹³ See A/AC.105/869, para. 101, and annex II, para. 8.

session and as agreed by the Subcommittee at its forty-third session and the Committee at its forty-ninth session;¹⁴

16. *Agrees* that, in the context of paragraph 10 (b) (iii) above, the Scientific and Technical Subcommittee, at its forty-fourth session, should establish, for one year, a working group on near-Earth objects, in accordance with the workplan under this item;¹⁵

17. *Endorses* the United Nations Programme on Space Applications for 2007, as proposed to the Committee by the Expert on Space Applications and endorsed by the Committee;¹⁶

18. *Notes with satisfaction* that, in accordance with paragraph 30 of General Assembly resolution 50/27 of 6 December 1995, the African regional centres for space science and technology education, in the French language and in the English language, located in Morocco and Nigeria, respectively, as well as the Centre for Space Science and Technology Education in Asia and the Pacific and the Regional Centre for Space Science and Technology Education for Latin America and the Caribbean, entered into an affiliation agreement with the Office for Outer Space Affairs and have continued their education programmes in 2006;

19. *Agrees* that the regional centres referred to in paragraph 18 above should continue to report to the Committee on their activities on an annual basis;

20. *Notes with satisfaction* the contribution being made by the Scientific and Technical Subcommittee and the efforts of Member States and the Office for Outer Space Affairs to promote and support the activities being organized within the framework of the International Heliophysical Year 2007;

21. *Also notes with satisfaction* that the African Leadership Conference on Space Science and Technology for Sustainable Development, the first of which was hosted by the Government of Nigeria in collaboration with the Governments of Algeria and South Africa from 23 to 25 November 2005, will be held on a biennial basis;

22. *Notes with appreciation* that the Fifth Space Conference of the Americas was held in Quito from 24 to 28 July 2006 under the auspices of the Office for Outer Space Affairs, the European Space Agency and the United Nations Educational, Scientific and Cultural Organization, and that the Government of Chile held a preparatory meeting for that Conference on 28 and 29 March 2006, with support from the Government of Colombia; notes that the theme of the Fifth Conference was “Regional space cooperation for security and human development” and that its results were set out in the Declaration of San Francisco de Quito and in the Plan of Action of the Conference; notes also that Ecuador will serve as secretariat pro tempore of the Conference for a period of three years, during which it will be responsible for the implementation of the recommended activities and programmes, for which purpose it will work in cooperation with the international group of

¹⁴ See A/AC.105/848, annex III, para. 8; A/AC.105/869, annex III; and *Official Records of the General Assembly, Sixty-first Session, Supplement No. 20 (A/61/20)*, paras. 139-141.

¹⁵ See *Official Records of the General Assembly, Sixty-first Session, Supplement No. 20 (A/61/20)*, para. 178.

¹⁶ *Ibid.*, paras. 81 and 87; see also A/AC.105/861, sects. II and III and annex III.

experts; and notes further that the Sixth Space Conference of the Americas will be held in Guatemala in 2009;

23. *Notes with satisfaction* that the Convention on the Establishment of the Asia-Pacific Space Cooperation Organization was opened for signature in Beijing on 28 October 2005, that as at 1 June 2006 the Convention had been signed by nine States and that once the Convention has been ratified by five States, it will enter into force, thereby establishing the organization, with its headquarters in Beijing;

24. *Considers* that it is essential that Member States pay more attention to the problem of collisions of space objects, including those with nuclear power sources, with space debris, and other aspects of space debris, calls for the continuation of national research on this question, for the development of improved technology for the monitoring of space debris and for the compilation and dissemination of data on space debris, also considers that, to the extent possible, information thereon should be provided to the Scientific and Technical Subcommittee, and agrees that international cooperation is needed to expand appropriate and affordable strategies to minimize the impact of space debris on future space missions;

25. *Urges* all States, in particular those with major space capabilities, to contribute actively to the goal of preventing an arms race in outer space as an essential condition for the promotion of international cooperation in the exploration and use of outer space for peaceful purposes;

26. *Emphasizes* the need to increase the benefits of space technology and its applications and to contribute to an orderly growth of space activities favourable to sustained economic growth and sustainable development in all countries, including mitigation of the consequences of disasters, in particular in the developing countries;

27. *Notes* that space science and technology and their applications could make important contributions to economic, social and cultural development and welfare, as indicated in the resolution entitled “The Space Millennium: Vienna Declaration on Space and Human Development”;²

28. *Reiterates* that the benefits of space technology and its applications should be prominently brought to the attention, in particular, of the major United Nations conferences and summits for economic, social and cultural development and related fields and that the use of space technology should be promoted towards achieving the objectives of those conferences and summits and for implementing the United Nations Millennium Declaration;³

29. *Takes note* of the report of the Secretary-General on the inclusion of the issue of the use of space technology in the reports submitted by the Secretary-General to major United Nations conferences and summits for economic, social and cultural development, and its inclusion in the outcomes and commitments of those conferences and summits;¹⁷

30. *Notes with satisfaction* the increased efforts of the Committee and its Scientific and Technical Subcommittee as well as the Office for Outer Space Affairs and the Inter-Agency Meeting on Outer Space Activities to promote the use of space

¹⁷ A/61/495.

science and technology and their applications in carrying out actions recommended in the Plan of Implementation of the World Summit on Sustainable Development (“Johannesburg Plan of Implementation”);¹⁸

31. *Urges* entities of the United Nations system, particularly those participating in the Inter-Agency Meeting on Outer Space Activities, to examine, in cooperation with the Committee, how space science and technology and their applications could contribute to implementing the United Nations Millennium Declaration, particularly in the areas relating to, inter alia, food security and increasing opportunities for education;

32. *Invites* the Inter-Agency Meeting on Outer Space Activities to continue to contribute to the work of the Committee and to report to the Committee and its Scientific and Technical Subcommittee on the work conducted at its annual sessions;

33. *Notes with satisfaction* that the open informal meetings, held in conjunction with the annual sessions of the Inter-Agency Meeting on Outer Space Activities and in which representatives of member States and observers in the Committee participate, provide a constructive mechanism for an active dialogue between the entities of the United Nations system and member States and observers in the Committee;

34. *Encourages* entities of the United Nations system to participate fully in the work of the Inter-Agency Meeting on Outer Space Activities;

35. *Notes* that space technology could play a central role in disaster reduction;

36. *Requests* the Committee to continue to consider, as a matter of priority, ways and means of maintaining outer space for peaceful purposes and to report thereon to the General Assembly at its sixty-second session, and agrees that during its consideration of the matter, the Committee could continue to consider ways to promote regional and interregional cooperation based on experiences stemming from the Space Conference of the Americas, the African Leadership Conference on Space Science and Technology for Sustainable Development and the role space technology could play in the implementation of recommendations of the World Summit on Sustainable Development;

37. *Notes with satisfaction* that the Committee established a closer link between its work to implement the recommendations of UNISPACE III and the work of the Commission on Sustainable Development by contributing to the thematic areas that are addressed by the Commission;

38. *Agrees* that the Director of the Division for Sustainable Development of the Department of Economic and Social Affairs of the Secretariat should be invited to participate in the sessions of the Committee to inform it how it could best contribute to the work of the Commission on Sustainable Development and that the Director of the Office for Outer Space Affairs should participate in the sessions of the Commission to raise awareness and promote the benefits of space science and technology for sustainable development;

¹⁸ *Report of the World Summit on Sustainable Development, Johannesburg, South Africa, 26 August-4 September 2002* (United Nations publication, Sales No. E.03.II.A.1 and corrigendum), chap. I, resolution 2, annex.

39. *Notes with appreciation* that the International Committee on Global Navigation Satellite Systems was established on a voluntary basis as an informal body to promote cooperation, as appropriate, on matters of mutual interest related to civil satellite-based positioning, navigation, timing and value-added services, as well as the compatibility and interoperability of global navigation satellite systems, while increasing their use to support sustainable development, particularly in developing countries;

40. *Notes* the fact that the Office for Outer Space Affairs could integrate into its programme of work a number of actions identified for implementation by the Office in the Plan of Action of the Committee on the Peaceful Uses of Outer Space for the further implementation of the recommendations of UNISPACE III¹⁹ and that some of those actions could be integrated into its programme of work only if additional staff and financial resources were provided;²⁰

41. *Urges* all Member States to contribute to the Trust Fund for the United Nations Programme on Space Applications to enhance the capacity of the Office for Outer Space Affairs to provide technical and legal advisory services and initiate pilot projects in accordance with the Plan of Action of the Committee, while maintaining the priority thematic areas agreed by the Committee;

42. *Agrees* that the Committee should continue to consider a report on the activities of the International Satellite System for Search and Rescue as a part of its consideration of the United Nations Programme on Space Applications under the agenda item entitled “Report of the Scientific and Technical Subcommittee” and invites Member States to report on their activities regarding the System;

43. *Requests* the Committee to continue to consider, at its fiftieth session, its agenda item entitled “Spin-off benefits of space technology: review of current status”;

44. *Also requests* the Committee, in view of the importance of space and education, to continue to consider, at its fiftieth session, under its agenda item entitled “Space and society”, the special theme for the focus of discussions for the period 2004-2006 “Space and education”, in accordance with the workplan adopted by the Committee;²¹

45. *Agrees* that the Committee should continue to consider, at its fiftieth session, its agenda item entitled “Space and water”;

46. *Also agrees* that a symposium on space and water should be held during the fiftieth session of the Committee;

47. *Notes with satisfaction* that the Committee agreed to consider, at its fiftieth session, under its agenda item entitled “Other matters”, the issue of the future role and activities of the Committee and noted that the Chairman of the Committee could conduct intersessional, open-ended informal consultations with a view to presenting to the Committee a list of elements that could be taken into consideration at its next session;

¹⁹ See A/AC.105/L.262.

²⁰ Ibid., annex, para. 6.

²¹ *Official Records of the General Assembly, Fifty-eighth Session, Supplement No. 20 (A/58/20)*, para. 239; and *ibid.*, *Sixty-first Session, Supplement No. 20 (A/61/20)*, paras. 245 and 260.

48. *Agrees* to include in the agenda of the fiftieth session of the Committee a new item, entitled “International cooperation in promoting the use of space-derived geospatial data for sustainable development”, under a multi-year workplan;²²

49. *Also agrees* that a panel on space exploration activities, including the participation of the private sector, should be convened during the fiftieth session of the Committee;

50. *Notes with satisfaction* that in accordance with the agreement reached by the Committee at its forty-sixth session on the measures relating to the future composition of the bureaux of the Committee and its subsidiary bodies,²³ on the basis of the measures relating to the working methods of the Committee and its subsidiary bodies,²⁴ the Group of African States, the Group of Asian States, the Group of Eastern European States, the Group of Latin American and Caribbean States and the Group of Western European and Other States have nominated their candidates for the offices of Chair of the Scientific and Technical Subcommittee, First Vice-Chair of the Committee, Chair of the Legal Subcommittee, Chair of the Committee and Second Vice-Chairman/Rapporteur of the Committee, respectively, for the period 2008-2009;

51. *Endorses* the composition of the bureaux of the Committee and its subsidiary bodies for the period 2008-2009, as reflected in paragraph 50 above, and agrees that the Committee and its Subcommittees should elect their officers at their respective sessions in 2008 in accordance with that composition;

52. *Notes* that each of the regional groups has the responsibility to actively promote the participation in the work of the Committee and its subsidiary bodies of the member States of the Committee that are also members of the respective regional groups, and agrees that the regional groups should consider this Committee-related matter among their members;

53. *Requests* entities of the United Nations system and other international organizations to continue and, where appropriate, to enhance their cooperation with the Committee and to provide it with reports on the issues dealt with in the work of the Committee and its subsidiary bodies.

²² *Ibid.*, *Sixty-first Session, Supplement No. 20 (A/61/20)*, paras. 301-303.

²³ *Ibid.*, *Fifty-eighth Session, Supplement No. 20 (A/58/20)*, annex II, paras. 4-9.

²⁴ *Ibid.*, *Fifty-second Session, Supplement No. 20 (A/52/20)*, annex I; see also *Official Records of the General Assembly, Fifty-eighth Session, Supplement No. 20 (A/58/20)*, annex II, appendix III.
