### **IFRC COVID-19 Emergency Decree Pro Bono Research: Indonesia**

**White & Case Team:** Kristo Molina (Partner), Astrid Desmonda (Associate), Nur Sabila Yustika (Trainee Associate), and Deborah Victoria (Trainee Associate)

*This research has not taken into any news articles, regulations and/or policies issued after 7AM EDT (Friday, 27 March 2020).*

1. Is there coordination between state and non-state actors, e.g. through a national emergency response mechanism?

#### **Answer:**

*Yes, in addition to coordination with RC/humanitarian actors as set out in No. 2 below, the Indonesian government has formed a task force for handling the spread of COVID-19. The government has also coordinated with a number of hospitals and granted monthly incentives to medical team members. The Indonesian government has further received support from corporate players.*

#### **FORMATION OF TASK FORCE**

*Indonesian President Joko Widodo formed a task force for the acceleration of handling COVID-19 (the “**Task Force**”) on 13 March 2020 by virtue of the Decree of the President of the Republic of Indonesia No. 7 of 2020 concerning the Task Force for the Acceleration of Handling of COVID-19 as amended by Decree of the President of the Republic of Indonesia No. 9 of 2020 (“**COVID-19 Presidential Decree**”). The Task Force consists of instructors and executors which consist of numerous ministries in Indonesia.*

*On March 18, 2020, the Task Force launched a portal [www.covid19.go.id](http://www.covid19.go.id) as an official source of information on handling the global pandemic COVID-19. The covid19.go.id site was developed by Risk Communication and Public Engagement Team for COVID-19 countermeasures. The team consisted of various elements namely the government, the United Nations Agency (UNICEF, WHO, etc.), international development partners, civil society organizations and the business world.*

*This website aims to ensure that the public has access to official and accurate information about overcoming the COVID-19 outbreak in Indonesia. The website also contains three (3) simple guidelines for the community’s reference, namely “How to Reduce the Risk of Transmission,” “Finding the Right Information” and “What to Do if Getting Sick”. Statistical data on the number of positive cases of COVID-19 is updated in real-time and is expected to be a reference for various parties, especially the media partners in their reporting.*

#### **COORDINATION WITH HOSPITALS AND MONTHLY INCENTIVES FOR MEDICAL TEAMS**

*The Indonesian government continuously strengthens its coordination with plenty of hospitals across the region. Based on Decree of the Minister of Health of Indonesia No. HK.01.07/MENKES/169/2020 on Determination of Hospital References of Certain Emerging*

Infection Disease dated 10 March 2020, there are 132 private hospitals, both private and public, to handle COVID-19 patients and since 23 March 2020, Wisma Atlet, which is used to be a venue where ASEAN Games held, has now officially been set as an urgent hospital to handle COVID-19 patients with the capacity of 3,000 people. As the representative of the government, Muhamdijir Effendy, Minister of Coordination for Human Development and Culture said that the government will fully pay for the treatment of COVID-19 patients to its hospitals by having a partnership with The Indonesian National Health Insurance to fasten the fund transfer to hospitals.

Further, in a press conference on 23 March 2020, the President of Republic of Indonesia, Joko Widodo stated that he determined to grant medical teams monthly incentives as a form of appreciation for their hard work in the following amounts:

<b>Medical Practitioner</b>	<b>Monthly Incentive (IDR)</b>	<b>Monthly Incentive (US\$)</b>
Specialist Doctor	15,000,000	929.43
Dental General Practitioner	10,000,000	619.62
Nurse Midwife	7,500,000	464.71
Other Medical Personnel	5,000,000	309.81

In addition to the above, the family of a medical personnel who passes away due to handling COVID-19 will receive compensation in the amount of IDR 300 million (~US\$18,588.51).

In the press conference dated 24 March 2020, Joko Widodo requested the Ministry of Health of Republic of Indonesia to prioritize COVID-19 rapid tests for medical personnel who treat patients positively infected with COVID-19.

#### **SUPPORTS FROM CORPORATE PLAYERS**

While there is no formal coordination between the Indonesian and corporate players in Indonesia, several corporate players in Indonesia have taken the initiatives to contribute by way of donations, such as follows:

- (a) Astra Group<sup>1</sup> has donated numerous COVID-19 prevention equipment such as test equipment, Personal Protective Equipment (“PPE”), hand sanitizer, disinfection, 100 unit of Daihatsu Gran Max Pick Up and 10 unit of truck for disinfectant spraying vehicles conducted by the Red Cross Society (Palang Merah Indonesia – “PMI”). To distribute these donations equally, Astra Group built a partnership with Ministry of Health of the Republic of Indonesia, BNBP, Indonesian Lung Doctors Association (Perhimpunan Dokter Paru Indonesia - PDPI), medical laboratories, and government referral hospitals

<sup>1</sup> Astra Group is a company group in Indonesia that provides services and products in, among others, automotive, financial services, agribusiness, infrastructure and logistics, property, technology information, and construction through its subsidiaries.

worth IDR 5.5 billion (~US\$ 340,778.83) and IDR 40 billion (~US\$ 24,783,915.20) to a foundation which accommodates and manages funds from corporate group in Indonesia.

- (b) PT Aplikasi Karya Anak Bangsa, a multi-service and digital payment technology group in Indonesia which known for one of their railing services called “Gojek” has created US\$ 6 million fund to support all drivers, merchants and other partners across the region whose income has been affected amid the COVID-19 pandemic. The Gojek partner support fund will be administered through a newly created foundation, Anak Bangsa Bisa Foundation. The foundation will have a partnership with multiple stakeholders including government, civil society groups and driver groups with the priority of supplementing drivers’ and other partners’ income through this period. The funding will come from three sources such as 25% of an annual salary of Gojek’s co-CEOs and Gojek’s senior management team, Gojek’s annual salary increase budget will be redirected to the support fund and public donation which particularly comes from corporate partners.
  - (c) Media Group Foundation, a foundation established by Media Group (one of the largest Indonesian media groups that has, among others, a television channel called MetroTV) distributed PPE packages for medical workers to City Governor of Bogor. The PPE packages contain 550 N95 Masks, 9,000 medical gloves, 30 protector glasses, 2,500 surgical masks, 60 hazmat suits, and 120 hand sanitizers.
  - (d) PT Pelabuhan Indonesia I (Persero) or Pelindo, an Indonesian port services state-owned enterprise, conducts disinfection spraying, body temperature checking, and social standing protocol in both working area and public services area. Every public facility in passenger terminal and offices managed by Pelindo is marked with a space guidance line of 1 meter.
2. Is there mention of the role of Red Cross (RC) or humanitarian actors? In what areas/sectors? What responsibilities are ascribed to RC?

**Answer:**

Yes, please see below the involvement of RC in Indonesia and other humanitarian actors involved, with details on the areas/sectors where they operate and their responsibilities:

**(a) PMI**

As a member of International Federation of Red Cross and Red Crescent Societies, PMI has been assisting the Indonesian government with the prevention/containment of the spread of COVID-19 in Indonesia by conducting various COVID-19 prevention and containment programs in Indonesia, including as follows:

- (i) On February 25, 2020, PMI campaigned the “Million Masks Movement for Indonesia” as a fundraising movement at <https://benihbaik.com/campaign/sejutamaskeruntindonesia> for the procurement of masks as a solution to overcome the depletion of mask supplies at PMI and the drastic increase of the price of masks. The masks were to be distributed by PMI for free to the people who need it.

- (ii) On March 17, 2020, PMI sent 3,000 volunteers to help the treatment of COVID-19 patients throughout Indonesia. PMI volunteers also held mass disinfectant spraying activities throughout Indonesia.
- (iii) On March 19, 2020, PMI prepared additional logistics warehouses to store logistics related to handling COVID-19 such as the construction of 3 hall warehouses with a size of 10 x 32 meter to store spray equipment, disinfectant liquids, gloves, boots, goggles, and sterile masks and clothes and 3 workspaces measuring 10 x 24 meters to monitor logistical stock and distribution. Currently, PMI has 6 Regional Warehouses spread across Padang (West Sumatra), Serang (Banten), Gresik (East Java), Semarang (Central Java), Banjarmasin (South Kalimantan) and Makassar (South Sulawesi).

*PMI has also been a successful forum for collecting donations from various parties, including Shopee which contributed IDR 1 billion (~US\$ 61,862.05) and youth influencer in Indonesia Rachel Venya who contributed IDR 2 billion (~US\$123,724.09). These donations will later be used to support PMI's Non-Natural Disasters Emergency Program for COVID-19, which includes meeting the needs of the PPE for medical personnel in PMI hospitals, PMI clinics and PMI blood donor units in several regions in Indonesia. In addition, the donations will also be used to fund disinfecting spraying activities, ambulance services, first aid/family care services, logistics distribution services, as well as psychosocial services.*

**(b) Amnesty International Indonesia**

*Amnesty International Indonesia is a non-governmental organization with its headquarters in the United Kingdom focused on human rights. On 21 March 2020, Amnesty International Indonesia sent an open letter to President Joko Widodo for the government to fulfill the rights of health workers in the midst of the COVID-19 outbreak. The open letter was written by Amnesty International Indonesia together with the Indonesian Doctors Association, the Indonesian Dentists Association, the Indonesian National Nurses Association, the Indonesian Midwives Association, and the Indonesian Pharmacists Association. The open letter urged President Joko Widodo, the Ministry of Health of the Republic Indonesia, and all levels of the Department of Health at the regional level to ensure that (i) the distribution of PPEs is carried out fairly and equally throughout the regions, both in quality and quantity; (ii) the COVID-19 infection care and treatment protocol for health workers are implemented properly so as to ensure such health workers' health and safety; and (iii) transparent and comprehensive information about medical workers, health workers, and other health workers who are exposed to COVID-19 could be immediately provided and they such workers could access health services. As of note, there has been no public response regarding the letter, however up to the date of this response, the government has carried out every single request from Amnesty International Indonesia as further explained thoroughly in this response.*

**(c) Lokataru Foundation**

*Lokataru Foundation is an organization that works for advocacy and movement on human rights. On March 21, 2020, Lokataru Foundation, together with the Civil Society Coalition consisting of the Indonesian Alliance of Independent Journalists (Aliansi Jurnalis Independen - AJI), Asia Justice and Rights (AJAR), Amnesty International Indonesia, the Commission for the Disappeared and Victim of Violence (Komisi untuk*

*Orang Hilang dan Korban Tindak Kekerasan - KontraS), Legal Aid Institute (Lembaga Bantuan Hukum - LBH), Jakarta Community Law (Lembaga Bantuan Hukum - LBH), Lokataru, Migrant Care, Democratic Education Association (Perhimpunan Pendidikan Demokrasi - P2D), Indonesian Center for Law and Policy Studies (Pusat Studi Hukum dan Kebijakan Indonesia - PSHK), Transparency International Indonesia (TII), Indonesian Forum for the Environment (Wahana Lingkungan Hidup Indonesia - WALHI), and Indonesian Legal Aid Foundation (Yayasan Lembaga Bantuan Hukum Indonesia - YLBHI) ), published a press release to urge the Indonesian government to:*

- (i) *Provide accurate, comprehensive and periodic public information regarding the spread and transmission risk of COVID-19.*
- (ii) *Clarify the mechanism and effectiveness of mass tests without imposing the cost to the public. Prioritize examinations for people who have been exposed to or interacted with positive patients.*
- (iii) *Urge the central government to ensure the availability of PPE and facilities needed for health workers (doctors and nurses), and administrative staff.*
- (iv) *Issue a decision to tackle COVID-19 based on recommendations from health experts and not on political grounds or other reasons, including the determination of the quarantine zone.*
- (v) *Urge the Minister of Internal Affairs to mobilize and maximize the role of government agencies in informing and disseminating social distancing policies and involving the broadest public participation to prevent the further spread of COVID-19.*
- (vi) *Urge the central government and local governments to work together with the community by increasing coordination and immediately taking strategic decisions to prevent the spread of COVID-19 and its effects on the safety of all the people of Indonesia.*

(d) United Nations Development Program (“UNDP”)

*UNDP is the United Nations' global development network that works to eradicate poverty and reduce inequalities through the sustainable development of nations, in more than 170 countries and territories. On 24 March 2020, UNDP carried out a partnership with Korean International Cooperation (“KOICA”) and the Ministry of Administrative and Bureaucratic Reform of the Republic of Indonesia (Kementerian Pendayagunaan Aparatur Negara dan Reformasi Birokrasi – “KemenPANRB”) to support the utilization of SP4N-LAPOR! or National Public Service Complaints Handling System which is now being used as a direct communication platform between the government and citizens to send vital information on COVID-19 (i.e filing recommendations, complaints, ideas, or question on COVID-19 through LAPOR! smartphone application, website (<https://www.lapor.go.id/>) and text messaging). The partnership established by UNDP with KOICA and KemenPANRB aims to enhance the digitalization of the platform and expand it by connecting it to all subnational governments in Indonesia.*

(a) The Indonesia Disaster Awareness Movement Foundation (Yayasan Gerakan Indonesia Sadar Bencana –“Graisena”)

*Graisen is running a fund-raising campaign via Instagram to provide aid to families whose breadwinners have been hospitalized. The families can request aid from Graisen by contacting 082278134234 and providing a letter from the hospital confirming COVID-19 infection and the funder could transfer their funds to Graisen's bank account. The collected money will be distributed to each family at US\$1.26 per day per person for a maximum duration of 45 days.*

(b) House of Humanitarian Solidarity of Jakarta

*The House of Humanitarian Solidarity of Jakarta, is a Non-government Organization ("NGO") which led by former Jesuit priest and activist Sandyawan Sumardi. On 23 March 2020, this NGO has launched an initiative to help disadvantaged communities in the capital during the COVID-19 crisis by producing and distributing handmade face masks and hand sanitizers. The public can donate by drop off the donations in the form of goods at the NGO's secretariat or money through online transfer to NGO's bank account.*

(c) One District One Entrepreneurship (One Kecamatan, One Center of Entrepreneurship – "OK OCE")

*Sandiaga Uno, former Deputy Governor of Jakarta, through OKE OCE program (a program found by the provincial governor of DKI Jakarta on entrepreneurship development) raising funds along with Gbek coffee shop and the Yadas Foundation for COVID-19 patients or patients under surveillance who are the main income earners in their families.*

(d) Indonesian Conference on Religion and Peace ("ICRP")

*ICRP is a foundation which promotes and enhance the dialog and cooperation of cross faith. ICRP is now raising funds to buy face masks, disinfectants, hand sanitizers and staple needs for low-wage workers. The public who interested in donating to ICRCR can transfer funds directly to ICRP's bank account.*

3. Are there exceptions to travel restrictions that will facilitate the movement of RC/humanitarian relief teams and/or aid across borders? What (if any) quarantine requirements or other conditions are attached?

**Answer:**

*As of the date of this response, there are few travel restrictions applicable in Indonesia in the form of suspension or dismissal of certain visas and stay permits that may hinder the movement of RC/humanitarian relief teams and/or aid across borders, as follows:*

- (a) *Regulation of MOLHR No. 7 of 2020 on Visa Issuance and Stay Permit in Respect to Prevent the Entry of COVID-19 dated 28 February 2020. Under this regulation, the issuance of visitor visa and visa on arrival is being suspended temporarily for foreigners who ever lived and/or visited the People's Republic of China within 14 days before entering the territory of the Republic of Indonesia. There is no exemption under this regulation with respect to humanitarian/medical aid teams who have ever lived and/or visited the People's Republic of China.*

- (b) *Regulation of MOLHR No. 8 of 2020 on Temporary Dismissal of Visit-Free Visa and Visa on Arrival and Issuance of Forced Stay Permit dated 18 March 2020. Under this regulation, the issuance of visit-free visa and visa on arrival are being suspended to the foreigners who previously obtain this privilege according to their country of origin. For the foreigners who are affected by the lockdown policy and thus unable them to fulfill immigration procedure, then the Indonesian government may grant forced stay permit, a limited stay permit, a permanent residence permit, a re-entry permit and an entry certificate to them with certain terms and conditions (e.g. declaration of healthiness from the health authority, have been living within 14 days in free COVID-19 country and ready to be quarantined for 14 days in Indonesia afterward.) There is no exemption under this regulation with respect to humanitarian/medical aid teams applying for such permit.*

*Additionally, in connection with Eid Al-Fitr (Muslim annual feast) which involves the celebrants to visit their family in their hometown (known as “**Mudik Lebaran**”), we have noted from numerous news articles (e.g. <https://www.thejakartapost.com/news/2020/03/24/forget-mudik-this-year-govt-tells-people-as-idul-fitri-moves-closer.html>) that on 24 March 2020, the Minister of Transportation officially canceled the free Mudik Lebaran for 2020 as and advised the Indonesian citizens to stay at home during the celebration. There is, however, no clear prohibition from the Minister of Transportation for any person from traveling, and as such, we think that this policy will not hinder the movement of RC/humanitarian relief teams and/or aid across borders.*

4. Are there exceptions to quarantines, curfews and other restrictions on movement that allow RC/humanitarian organizations access to vulnerable populations (including for psychosocial or non-medical aid)?

**Answer:**

*While there is no regulation that expressly imposes quarantine requirements, we have noted from news articles (e.g. <https://www.msn.com/id-id/berita/nasional/71-tim-medis-di-rs-mitra-keluarga-depok-rampung-karantina/ar-BB11IZKt>) that medical teams in various hospitals in Indonesia that handled and/or made contacts with COVID-19 patients were required to be quarantined. It is unclear as to how such restrictions are applicable to RC/humanitarian organizations, and if there are any exceptions.*

5. Have any special legal facilities or exemptions been put in place for the importation of medical aid or other relief items or personnel (International Disaster Response Law)? What (if any) quarantine requirements or other conditions are attached?

**Answer:**

*COVID-19 Presidential Decree provides import duty and trade licensing exemptions that would be applicable to imports of goods used for handling COVID-19. COVID-19 Presidential Decree does not specify in detail on the kinds of goods exempted. Such exemptions require recommendation from BNBP.*

6. Is the RC (or humanitarian organizations) categorized as 'essential' or 'emergency' services, for the purposes of exemptions to restrictions on business operations and opening hours?

**Answer:**

*As of the date of this response, there are no restrictions on business operations and opening hours applicable in Indonesia.*

7. What other measures are provided in the emergency decrees? (for governmental actors, for communities, for health workers, etc).

**Answer:**

*As of the date of this response, other than COVID-19 Presidential Decree, the Indonesian government has issued the following regulations and/or decrees for government actors, health workers and communities applicable nation-wide and with respect to the regional regulations, the province of DKI Jakarta only:*

- (a) *For government actors:*
- (i) *Circular of Minister of Finance No. SE-2/MK.1/2020 dated 2 March 2020 on the Prevention of Spreading of COVID-19 in the Environment of Ministry of Finance. Under this regulation, the protection for health and safety is provided for employees against spreading of COVID-19 in the environment of Ministry of Finance.*

8. Have restrictions been adopted or put in place that ban the export of protective medical equipment?

**Answer:**

*Under the Regulation of the Minister of Trade No. 23 of 2020 dated 16 March 2020 concerning Temporary Restriction on the Exports of Antiseptic, Mask Raw Materials, Personal Protective Equipment, and Masks (as amended), President Joko Widodo prohibits export of masks and medical equipment. This is instructed in order to meet the hospitals' needs in Indonesia. This prohibition is valid until 30 June 2020.*

*In addition, based on news articles (<https://www.cnnindonesia.com/ekonomi/20200319110253-92-484845/jokowi-larang-ekspor-masker-dan-alat-kesehatan-karena-corona>), President Joko Widodo also asked his staff to ensure the availability of raw materials for the production of medical equipment in the country so the production is not disrupted.*
